

BREEDLOVE FOODS, INC. - FYE 9.30.23

Impact Report

OUR MISSION

We partner globally to provide nutritious food to the world's most vulnerable. In doing so, we seek to alleviate world hunger and transform lives through hope and encouragement.

HOW WE DO THIS

Breedlove develops and produces innovative, nutritious, and low-cost humanitarian food aid products – sustaining life and restoring health around the globe. We work with an amazing network of partners to ship our food to areas of need including hunger-stricken communities, areas affected by natural disaster or war, and other areas (including local U.S. communities) where people are experiencing a food shortage.

IMPACT SNAPSHOT

20

countries shipped to

93

million meals distributed

We couldn't have done it without your generous *support.*

Thank you to all our donors.

2024 is a very special year for Breedlove marking 30 years of feeding the world's most vulnerable. Thank you for being a part of it through your partnership and support! There is much we have accomplished together, with more to come!
